

Are You Tired of Being Homeless? It's Your Choice and Not God's. OK?

Take the Initiative!

I shall start by saying that people who are living on the streets, be it winter, spring, summer, or fall, homeless people need real encouragement that will offer them real hope to see into their future, on the bright side of things. False impressions the homeless don't need. If a helper is not for real with the homeless it is best to stay away from them. They already have enough jive issues on their plates to deal with and don't need any more broken promises from people they don't even know.

I know what I am talking about. I, myself, was homeless for almost 20 years and believe me, I've been through hell and I know what I am talking about when it comes down to talking about my precious sisters and brothers who are homeless.

Folks are on the streets either walking or sleeping because they don't have any place that is safe, where they can lay their heads and call home. For whatever reasons people become homeless, they are still precious children of almighty God, created in His image. They have an eternal soul which will live forever in one of two places-heaven or hell.

Both places are very very real, indeed! And so will the great white throne on judgment day be real. Each person ever born, one day will stand before almighty God and give an account for the things done in this life, whether good or bad. This includes all secrets whether good or bad; God is almighty, all knowing and supernaturally sees everything, even things done in the dark...where people think that they can do and treat and say evil things to my precious sisters and brothers, and God isn't going to do anything about it! They are wrong! The devil is a liar!

My God is married to the homeless, the backslider, the oppressed, to the weak, and to those homeless folks who want to help themselves but just can't. Why? Because they don't have any motivation, no desire to want to live, no family to give our homeless sisters and brothers some real affection in a big hug which says to a person "We love you unconditionally." It doesn't matter what your mistakes of the past were, we forgive you and love you anyway! Whoever you may be, yes! Almighty God will surely help people who can't help themselves but want to, and He will always protect the homeless pandemic going on around the world!

Here's the key to unlock the door that leads to a brand new life, leaving the past behind you. First, boldly take the initiative to accept things as they are including

yourself. Anyway, why worry about anything that you can't change? Put it in God's hands He can straighten anything out to His glory!

Second, take the first step, make a beginning to instruct yourself in the way you must go- forward, not backward to being homeless again.

To all those who are homeless: you won't be homeless ever again. If you are in the Faith, take the initiative! Ask God to help you get off those dangerous streets and He will. Just you believe, because you are one step away from a miracle!

P. S. Jesus loves you.

Thank you all
